

# Insects

Date: \_\_\_\_\_ Instructors Name: \_\_\_\_\_

What are the four main ecosystem roles of insects?

- 
- 
- 
- 

Draw two pictures illustrating the differences between insects and spiders:

Describe your favorite technique of capturing insects. What was the habitat like and how did you catch so many insects?

---

---

---

---

Draw and label the tools you used for capturing insects:

# Insects

What are some features people use to divide insects into classifications?

- 
- 
- 
- 
- 
- 

List the five main mechanisms of success for insects (why are they so good at living everywhere?)

- 
- 
- 
- 
- 

Give at least two reasons why insects are important to humans, including explanations of how insects are helpful.

---

---

---

---

Describe how your life would change if there were no more insects anywhere...

---

---
